Date: April 14, 2025

The management and staff of Greer Commission of Public Works (the "Commission") are pleased to present the Annual Comprehensive Financial Report (ACFR) for year ended December 31, 2024.

INTRODUCTION

This report was prepared by the Commission's financial staff and conforms to the guidelines of the Governmental Finance Officers Association ("GFOA") and Generally Accepted Accounting Principles ("GAAP") as prescribed by the Governmental Accounting Standards Board ("GASB"). Responsibility for both accuracy of the data and the completeness and fairness of the presentation rests with the Commission. To provide a reasonable basis for making these representations, management of the Commission has established a comprehensive internal control framework that is designed both to protect the Commission's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Commission's financial statements in conformity with GAAP. Because the costs of internal controls should not outweigh their benefits, the Commission's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly, the financial position and results of operations of the Commission. All disclosures necessary to enable the reader to gain an understanding of the Commission's financial activities have been included.

The Commission's financial statements have been audited by Mauldin & Jenkins, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Commission are free of material misstatement. As part of their audit, the independent auditor examined, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessed the accounting principles used and significant estimates made by management; and evaluated the overall financial statement presentation. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis ("MD&A"). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Commission's MD&A can be found immediately following the report of the independent auditor.

PROFILE OF THE COMMISSION

The Commission was formed in 1913 for the purposes of providing electricity, water distribution, and sewer collection and treatment to the residents of the City of Greer. In 1950, the City of Greer's ("City") City Council enacted an ordinance to combine the previously separate systems of the Commission. In 1957, the City Council enacted an ordinance which founded a natural gas unit to be added to what is now the present-day "System".

Designation of management, contractual and budgetary authority, funding of deficits, responsibility for debt, setting of rates, and fiscal management of the affairs of the Commission are the exclusive responsibility of the Commission. The Commission makes recommendations to the City Council for the issuance of bonds but is otherwise authorized under the laws of the state of South Carolina to have full control and management of the System. The laws of the state of South Carolina provide for three Commissioners to be elected by the public for six-year, staggered terms, with one seat up for election every two years. The members of the Commission, as of December 31, 2023, and the number of years of continuous services as Commissioners are as follows:

Name	Years of Service
Jeffery Howell	26
Eugene Gibson (Chairman)	42
Perry Williams	15

i

Water System

The Waterworks Unit was established in 1914. The Commission owns and manages two raw water reservoirs, Lake Cunningham, and Lake Robinson. Lake Cunningham is the Commission's primary water supply and was constructed on the South Tyger River in 1957. It is approximately 200 surface acres in size. Lake Robinson was constructed in 1984 and includes approximately 800 surface acres. Lake Robinson is the secondary water supply and is located just north of Lake Cunningham.

The water treatment plant is located at Lake Cunningham and has a treatment capacity of 24 million gallons per day ("MGD") with an average daily flow of 9.6 MGD. The water distribution system operates on three gradient levels, a high-level system (1,272 ft. mean sea level ("MSL")), intermediate level system (1,130 ft. MSL), and a low-level system (1,104 ft. MSL). Each level has two elevated storage tanks for a total capacity of 5.75 million gallons. The Commission supplies potable water to 23,986 customers and serves all the population within the City limits and surrounding areas. Over the last year, the Commission experienced a customer growth rate of 3.2% in the Waterworks Unit.

Wastewater System

The Wastewater Department of the Commission was established in 1914 and provides sanitation services by means of its wastewater collections system and wastewater treatment plant ("WWTP"). The Maple Creek WWTP experiences an average daily processing flow of 2.62 MGD with a current permitted capacity of 5.0

MGD. The WWTP received its latest upgrade in 2009 and is designed for future upgrades to provide additional capacity due to area growth. The upgrade included significant improvements to the headworks, influent pumping, biosolids handling facilities, and provides for ultraviolet disinfection of the wastewater at the Maple Creek WWTP. The upgrade also included an energy generation plant that not only provides the emergency energy needed for the WWTP, but also additional energy that can be added to the electrical system which generates load side credits from our wholesale energy provider. Wastewater collection and treatment for the Commission's 15.355 customers is accomplished through approximately 273.02 miles of gravity lines and 31.06 miles of force mains for a total of 304.08 miles maintained by the Commission. Over the last year, the

Commission experienced a customer growth rate of 6.1% in the Wastewater Department. The Commission also provides wastewater collection services to the customers of Renewable Water Resources ("ReWa") that live in the City of Greer and conveys this wastewater to ReWa's treatment facilities.

Electric System

The Electric system was established in 1914 and provides the generation and distribution of electricity to City residents. In 1927, the Commission ceased generating electricity and from that time initiated the purchase of power from outside electric utilities to provide its supply of electricity. Up until 1985, the Commission purchased

most of its electric power from Duke Energy Company. During 1985, the Commission began purchasing its primary supply of electrical power from the Piedmont Municipal Power Agency ("PMPA"), a joint public agency consisting of ten municipal participants, of which the Commission is a charter member. The Commission also purchases a portion of its electrical supply from the United States Department of Energy's Southeastern Power Agency's ("SEPA") allocation of pooled hydroelectric power generated along the Savannah River. Over 90% of the purchased power is carbon free, generated by nuclear and hydro resources. The Electric Unit consists of five substations operating 33 circuits.

Distribution of 12,470 volts of electricity is managed with approximately 218 miles of overhead distribution facilities and approximately 292 miles of underground facilities. The service area served by this unit is approximately 35 square miles, including the City limits and surrounding areas, and serves 25,611 customers. Over the last year, the Commission experienced a customer growth rate of 4.1% in the Electric Unit.

Natural Gas System

The Natural Gas system was established during 1957 and provides for distribution of natural gas to residents of the City of Greer, SC, and surrounding areas. The transmission system originates on the Transcontinental Gas Pipeline Corporation ("Transco") mainline in Crescent, SC and Landrum, SC. Natural gas is then transported to the City of Greer and surrounding areas by means of twelve-inch, eight-inch, and four-inch high-pressure

transmission lines which are owned and maintained by the Greer Commission of Public Works ("Greer CPW"). Greer CPW operates and maintains approximately 42 miles of high-pressure transmission lines, and approximately 904 miles of intermediate and distribution lines, along with 228 pressure-regulating stations. These distribution lines serve 32,007 customers located north to the City of Landrum, south to the City of Woodruff, east to the City of Wellford and west to the City of Taylors encompassing approximately 450 square miles. The natural gas system continues to grow at an annual rate of 10.2% due to the efficient, safe, and economical benefits of natural gas as it relates to cooking, heating homes and businesses. heating water, and drving clothes. Greer CPW

operates one of the few compressed natural gas ("CNG") fueling stations in the area made available to the general-public and is open twenty-four hours a day and seven days a week.

SERVING OUR CUSTOMERS

The primary mission of the Commission is to serve our community by providing safe, high quality, and reliable water, natural gas, electric and wastewater services in an environmentally and fiscally responsible manner

consistent with sound business principles. The utility can set rates that are competitive with not only neighboring utilities, but with other providers throughout the region. These rates continue to benefit the growth and development in the community, while delivering a high value to all customers.

The Commission's reliability is among the very best nationally. Of the customers that experienced an electric outage, the occurrence averaged to only one time per customer, with an average duration of nearly 1.02 hours.

The Commission has a solid commitment to environmental stewardship. The utility is a member of PMPA, which owns a 25% stake in Unit 2 of the Catawba Nuclear Generating Station, operated by Duke Energy, in York, SC. In addition to

clean burning nuclear power, hydro-electric power is purchased from SEPA. To complement our clean power, the Commission's CNG fueling station celebrated nine years of service providing low emissions for fueling of vehicles, not only in the surrounding Community, but for use in approximately 8% of the Commission's service fleet.

Capital Investment

The Commission continued to invest in improving and expanding its infrastructure during 2024 by investing more

than \$41 million into the System. Investment in new utility infrastructure to new subdivisions and industries totaled approximately \$18.7 million. This investment provided support for the 6.1% average growth rate.

The Commission was nearly complete with the AMI meter change out for water and electric meter upgrades at the end of 2024. The AMI gas meter upgrades will continue in 2025 with a total completion estimated by 2026. This major infrastructure upgrade will allow the Commission to better plan for the usage needs of the utility and also allow our customers to see up to the hour data on their specific usage.

Growth in the Community, Growth in our Business

The Greer community experienced continued economic growth in its residential, commercial, and industrial sectors. The Commission realized a growth rate of 6.1% during 2024, with a 5-year average growth rate of 4.89% across its service area.

Customer service continues to be a priority for the Commission. Greer CPW continued rolling out its new Customer Service interface, Paygo. All of our residential customers are now able to access their monthly bills, review their usage and tell us how they want to interact with us even down to the time. We anticipate completion of this project and welcoming our commercial customers into the same platform in 2025. In 2024 we rolled out our new Flexpay option that allows customers to prepay their utilities. This flexible option has no fees and no due dates.

A Historic Year

The year 2024 was a historic year. Late in the evening of September 26, Hurricane Helene made landfall in the Big Bend of Florida as a strong Category 4 hurricane. She continued directly Northeast and into the Upstate of South Carolina devastating our community and wreaking havoc on the Commission's infrastructure. Record rainfall coupled with more than 80mph winds tore trees from their roots and impacted a significant amount of our

electric distribution system. Uprooted trees and flooding tore through our gas and water pipes. Greer CPW sustained more than two million dollars in damages.

While an event like this was unprecedented to much of the workforce of Greer CPW, we got to work, asked for help and got our community back up and running. Nearly 100% of our customers were back online with power within seven days of the storm. The Commission continues to make improvements after Helene to ensure a strong infrastructure for the future.

Commission employees are proud to serve our community and will be at the ready should an event like this ever affect our area again.

Awards

Employee dedication is evident by the many awards and recognition that all aspects of the Commission's operations have received:

- The General Assembly of the State of South Carolina officially declared the first Monday in March of year as "Water Professionals Day".
- The Area-Wide Optimization Program (AWOP) awarded Greer CPW's Water Filter Plant their 18th consecutive award for going beyond state and federal drinking water regulations. Participation in AWOP is voluntary, but the standards set using this model can reduce risk or waterborne illnesses.
- The American Public Gas Association (APGA) awarded Greer CPW with the Silver System Operational Achievement Recognition (SOAR) award in 2023. This award is based on system integrity, system improvement, workforce development and employee safety. The SOAR award recognition runs from 2023-2025.

Financial Stewardship, Financial Strength

The Commission operates under established policies for financing, rate setting, and cash management. These policies serve as parameters for developing annual operating budgets, as well as the 5-year Capital Improvement Plan. The revenue bond ordinance provides that the rates shall be maintained at levels which yield net revenues equal to a minimum of 120% of the annual principal and interest requirement in each fiscal year. The management of the Commission strives to maintain an internal target equal to a minimum of 200% of the annual requirement.

The Commission continued to realize another strong financial performance during 2024. Net revenues exceeded projections through staff efforts to reduce expenditures and improve efficiencies, while minimizing the effects of weather patterns changing from the normal patterns of the region. Debt service coverage continued strong for 2024 with 651% coverage.

Financial Award: The GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the Commission for its ACFR for the fiscal year ended December 31, 2023. This was the nineteenth consecutive year that the Commission has achieved this prestigious award. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR. This report must satisfy both GAAP and applicable legal requirements and is valid for a period of one year only.

Acknowledgements

This report could not have been prepared on a timely basis without the efficient and dedicated services of all the Commission's employees who assisted and contributed to its preparation. We are thankful for the leadership and support of the Board of Commissioners who enable the Commission to fulfill its role in providing our customers with the most reliable services at a reasonable price while protecting the environment and public health.

Sincerely,

Marc Regier General Manager

INDEPENDENT AUDITORS' REPORT

To the Honorable Chairman and Members of the Commission Greer Commission of Public Works Greer, South Carolina

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the **Greer Commission of Public Works** (the "Commission"), as of and for the years ended December 31, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position as of December 31, 2024 and 2023, and the changes in financial position, and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Commission and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Commission's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
 error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the
 Commission's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Commission's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of the Commission's proportionate share of the net pension liability, the schedule of Commission pension contributions, and the schedule of changes in the Commission's total OPEB liability and related ratios be presented to supplement the basic financial statements.

Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Commission's basic financial statements. The schedule of actual budgeted revenues and expenses and the schedule of divisional operating revenues and expenses (collectively, the "supplementary information") are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 14, 2025, on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Commission's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Commission's internal control over financial reporting and compliance.

Mauldin & Jankins, LLC

Columbia, South Carolina April 14, 2025

MANAGEMENT'S DISCUSSION AND ANALYSIS

This Management's Discussion and Analysis ("MD&A") of the Greer Commission of Public Works' (the "Commission") provides an overview of the financial activities for the fiscal years ended December 31, 2024, 2023, and 2022. This information serves as an introduction to the financial statements and should be read in conjunction with the audited financial statements.

Financial Highlights

The Commission continued to show a solid financial position for fiscal year 2024. The Commission is well within its debt covenants and the more stringent financial policies and guidelines set by the Board and management. The following are financial highlights for 2024:

- The Commission's net position increased by \$45,384,962, or 16.71% for 2024 as compared to an increase
 of \$23,177,441, or 9.33% in 2023.
- During the year, the Commission's operating revenues increased to \$109,768,677, which represents a 3.15% increase from the prior year. Operating revenues decreased to \$106,412,513, or 3.43% in 2023.
- Total operating expenses increased to \$95,555,804, which represents a 6.17% increase from the prior year. Total expenses decreased to \$90,003,262, or 11.47% in 2023.
- Purchased power expenses increased to \$39,653,709, up from \$38,125,996 last year. This 4% increase is reflected in the total operating expenses shown above. Purchased power increased from \$37,899,229, or by .6% to \$38,125,996 in 2023.
- Purchased gas expenses increased to \$17,180,306 last year. This 11.2% increase is reflected in the total
 expenses shown above. Purchased gas decreased from \$29,906,039, or by 48.34% to \$15,450,135 in
 2023.
- Capital contributions to the Commission decreased by \$1,522,553, which represents a 23% decrease from the prior year. Capital contributions increased by \$2,769,361, or 71.9% in 2023.
- Transfers to the City of Greer remained at \$1,000,000 for 2024 and 2023.
- Debt service coverage for 2024 was 618% of the bond ordinance requirement, which is 120% debt service coverage. Debt service coverage for 2023 was 666%.
- The Commission's credit ratings continue to remain solid with credit ratings from Moody's, Standard &
 Poor's and Fitch Ratings with ratings of A1, AA-, and AA-, respectively, which reflects the declining
 leverage and improved coverage of full obligations, competitive retail rates, diverse customer base, and
 robust area economics.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Overview of the Financial Statements

The Commission's annual statement consists of the Management's Discussion and Analysis ("MD&A"), the basic financial statements, required supplementary information, other supplementary information, and the compliance section. The MD&A serves as an introduction to and should be read in conjunction with the basic audited financial statements. The basic financial statements include notes which explain in detail information included in the basic financial statements.

Basic Financial Statements - The basic financial statements of the Commission report information about the Commission using the full accrual basis of accounting in a manner like those used by private sector companies. However, rate-regulated accounting principles applicable to private sector utilities are not used by government utilities. These statements offer short-term and long-term financial information about its activities. The basic financial statements include the statement of net position, statement of revenues, expenses, and changes in net position, statement of cash flows, and notes to the financial statements. The Commission accounts for its activities using a single proprietary (enterprise) fund. Under this method, revenues are recorded when earning and expenses are recorded at the time liabilities are incurred, regardless of the timing of the related cash flows.

Statement of Net Position - The *statement of net position* is the difference between assets plus deferred outflows and liabilities plus deferred inflows. It provides information about the nature and amounts of investments in resources (assets) and the obligations to the Commission's creditors (liabilities). It also provides the basis for computing rate of return, evaluating the capital structure of the Commission, and assessing the liquidity and financial flexibility of the Commission.

Statement of Revenues, Expenses, and Changes in Net Position - All the current year's revenues and expenses are accounted for in the *statement of revenues, expenses, and changes in net position*. This statement measures the success of the Commission's operations over the past year and can be used to determine whether the Commission has successfully recovered all its costs through its user fees and other charges, profitability, and credit worthiness.

Statement of Cash Flows - The *statement of cash flows* provides information about the Commission's cash receipts and cash payments during the reporting period. The statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities, and provides comparative information on the source and use of cash, and the change in the cash balance for each of the last two fiscal years.

Notes to the Financial Statements – The *notes to the financial statements* provide information about accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies, and subsequent events, if any.

Required Supplementary Information – In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning progress in funding its obligation to provide pension to its employees. The MD&A is also considered required supplementary information.

The basic financial statements were prepared by the Commission's staff from the detailed books and records of the Commission. The basic financial statements were audited and adjusted, if material, during the independent external audit process.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Analysis

The following comparative condensed financial statements and other selected information serve as the key financial data and indicators for management, monitoring and planning:

Condensed Financial Statements

Condensed Statement of Net Position

_		December 31,		2023 to 2024			 2022 to 2	023

MANAGEMENT'S DISCUSSION AND ANALYSIS

General Trends

During 2024, the Greater Greer area continued to realize the steady growth in the residential, commercial, and industrial base that it has experienced for the past 10 years. The Commission experienced growth in its customer base adding approximately 5,582 new customers, or 6.1%, continuing the growth trend that has averaged 3.9% over the past 10 years.

The Commission remains positioned to manage the growth that continues in our service area. We have a plentiful water supply and sufficient capacity to manage the demand of our Water and Sewer systems. The five strategically located Electric substations throughout the service area continue to provide reliable and competitive Electric services. Our Natural Gas service area is fed by our connections to the Transcontinental Pipeline, which provides our customers with an abundant supply of commodity.

Financial Position

The Commission employs conservative management principles to maintain sustained and healthy debt service coverages. This management style lends itself to our continued financial strength and stability. Total assets of \$405,544,316 increased by \$57,285,876, or 16.45%, compared to the 2023 increase to \$348,258,440. Current and other assets increased by \$24,862,678, or 41.72%, to \$84,457,749 from fiscal year 2023 results of \$59,595,071. As we continue to expand and improve our capital infrastructure, the capital assets for fiscal year 2024 increased by \$32,423,198, or 11.23%, to \$321,086,567 from fiscal year 2023 results of \$288,663,369. Total liabilities increased by \$11,367,738, or 14.99%, to \$87,184,138 from fiscal year 2023 results of \$75,816,400.

Results of Operations

Operating Revenues: Operating revenues are primarily comprised of electric, natural gas, water and sewer sales that are supplemented by revenues from connection fees, service charges, collection fees, and some miscellaneous fees. Total revenues increased by \$2,300,758 to \$111,600,546 in fiscal year 2024 from \$109,299,788 in fiscal year 2023 due to the net effects of increases to the electric, natural gas, water, and sewer revenues. The increase in the electric, water and wastewater revenues of 7.17%, 3.86%, and 8.09% can be attributed to several factors, including a more volatile weather pattern and commodity prices. Weather is always a factor to be reviewed when evaluating revenues. The heating degree days ("HDD") during 2024 were 2,593 days, higher than the 2,505 days experienced during 2023, and the cooling degree days ("CDD") during 2024 were 1,929 days, an increase from 2023 at 1,602 days. In addition to the volatility of the temperatures, the weather patterns also brought to the area 55 inches of precipitation, an increase from 2023 totals of 51 inches. The fluctuations in the price of the natural gas commodity resulted in weighted average costs of \$3.717 per dT, a decrease from 2023 of \$3.917 per dT.

Operating revenues during 2023 were decreased by \$11,669,133 to \$109,299,788 over fiscal year 2022 due to the net effects of increases to the electric, water, and sewer revenues. The decrease in the electric and natural gas revenues of 1.08% and 9.35%, respectively, can be attributed to several factors, but mostly due to a milder weather pattern. The heating degree days ("HDD") during 2023 were 2,505 days, 17% lower than the 3,023 days experienced during 2022, and the cooling degree days ("CDD") during 2023 were 1,602 days, a decrease from 2022 of 10.6%. In addition to the volatility of the temperatures, the weather patterns also brought to the area 51 inches of precipitation, a decrease of 4% from 2022 totals of 54 inches. The fluctuations in the price of the natural gas commodity resulted in weighted average costs of \$3.91 per dT, a decrease from 2022 of \$8.36 per dT.

Other operating revenues increased by \$1,760,346 and increased by \$252,624 during 2024 and 2023, respectively. The increases are attributable to several factors, including changes in the collection of non-payment fees, sales of gas, water, and sewer tap fees, sales of inventoried materials, and recovery of bad debts.

MANAGEMENT'S DISCUSSION AND ANALYSIS

During 2024, non-operating revenues decreased by \$1,055,406. This decrease is attributable to a decrease in interest earnings from cash balances held at banking institutions. During 2023, non-operating revenues increased by \$643,174. These increases can be attributed to an increase in earnings on investments and increased bad debts recovered.

Operating Expenses: Operating expenses are primarily comprised of the costs to procure electricity and natural gas for sales to our customers, to provide water treatment and distribution, and sewer collection and treatment. During 2024, expenses increased by \$5,552,542 to \$95,555,804, from \$90,003,262 in fiscal year 2023, due to the net effect of an increase in related purchased gas and other operating expenses. Purchased gas costs increased by \$1,730,171, or 11.2%, because of decreased commodity prices and mild weather experienced in the first and last quarters of 2024. Purchased power costs increased \$1,527,713, or 4%, because of slightly elevated customer demand experienced during the warmer temperatures during the summer months. Other operating expenses increased by \$1,864,826, with an increase to the operations and maintenance of equipment.

During 2023, expenses decreased by \$11,669,133 to \$90,003,262, from \$101,672,395 in fiscal year 2022, due to the net effect of a decrease in related purchased gas and other non-operating expenses. Purchased gas costs decreased by \$14,455,904, or 48.34%, because of decreased commodity prices and mild weather experienced in the first and last quarters of 2023. Purchased power costs decreased by \$226,767, or .6%, because of slightly lowered customer demand experienced during the summer months. Other operating expenses increased by \$2,519,154, with an increase to water and wastewater treatment chemicals, and the operations and maintenance of equipment.

Non-operating expenses decreased \$518,142, or 18.94%, to \$3,253,693 during 2024. The disposal of assets resulted in gain realized in the amount of \$127,152, a decrease from gain of \$234,313 realized during 2023.

During 2023, non-operating expenses increased by \$643,174, or 28.66%, to \$2,887,275. The disposal of assets resulted in a gain realized in the amount of \$234,313, a decrease from gain of \$345,986 realized during 2022.

As a result of these factors, the Commission experienced net revenues over expenses of \$16,560,975 and \$7,921,409, respectively in 2023 and 2022, before capital contributions.

Capital Contributions and Grants: Capital contributions include cash contributions, non-cash contributions and grants from various sources such as developers, customer assessments, and state and federal agencies. During 2024, the Commission received \$5,093,913 in capital contributions. This was a \$1,522,553 decrease from fiscal year 2023 capital contributions of \$6,616,466. Capital contributions for 2024 included the following receipts:

- \$202,239 received from various sources to offset capital costs related to lighting infrastructure
- \$2,833,461 received from various developer contributed properties that consists of water and sewer infrastructure

During 2023, the Commission received \$6,616,466 in capital contributions. This was an increase of \$2,763,361 from \$3,847,105 received during fiscal year 2022.

During 2024, the Commission had a legal settlement awarded that resulted in a special item for the Commission of \$27,500,000.

Transfers to the City: During fiscal years 2024 and 2023 the Commission made transfers to the City of Greer's General Fund in the amount of \$1,000,000.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Capital Assets and Long-term Debt

Capital Assets: At the end of 2024 the Commission has invested \$512,355,627 in land and a broad range of infrastructure including electric distribution facilities; electric substations; fiber optic infrastructure and equipment; water and sewer plants; wastewater facilities; water and sewer lines; maintenance and administration facilities; vehicles and equipment; and office and computer equipment. Please refer to Note 3 to the financial statements for additional information on the Commission's capital assets.

In 2024 and 2023, the Commission's capital assets increased in the net amount of \$36,473,693 and \$39,465,342, respectively. Of this increase, \$18,733,676 and \$17,311,005, respectively, was for expansion of the utility plant and the remainder for other operating assets and improvements during 2024 and 2023.

The following is a summary of some of the major capital improvements completed and added to the system during fiscal year 2024.

Advanced Meter Infrastructure Project (AMI)	\$ 8,170,234
System Expansion Projects in Gas	7,726,254
System Expansion Projects in Electric	5,677,763
Improvements and upgrades to the Electric system	4,634,898
System Expansion Projects in Water	3,307,980
Improvements and upgrades to the Water system	3,129,339
Improvements and upgrades to the Sewer system	2,574,647
System Expansion Projects in Sewer	2,021,679
Motor vehicles and equipment replacements	1,431,770
Lakes and Operations Improvements	1,252,838
Improvements and upgrades to the Gas system	1,235,879
Software System Improvements	29,527
Total major capital improvements	\$ 41,192,808

MANAGEMENT'S DISCUSSION AND ANALYSIS

Long-term Debt: At the end of 2024, the Commission had \$53,269,390 in aggregate long-term debt, up from \$42,823,533 at the end of fiscal year 2023, an increase of \$10,445,857, or 24.4%. In 2023, the Commission had \$42,823,533 in aggregate long-term debt, decreased from \$48,173,184 at the end of fiscal year 2022, a decrease of \$5,349,651, or 11.11%. The changes resulted from scheduled principal payments made on the existing debt, along with a new revenue bond for a gas system expansion. Please refer to Note 7 to the financial statements for additional information on the Commission's long-term debt.

Bond Ratings - All outstanding Combined Utility System Revenue Bonds ("Revenue Bonds") carry an A1, A+, and AA- ratings from Moody's, Standard & Poor's, and Fitch Ratings, respectively. During 2024, the Commission received affirmations of each of its ratings from Standard and Poor's and Fitch Rating.

Limitations on Debt - The Bond Ordinance provides that debt may be issued under the Bond Ordinance from time to time in such amounts as deemed necessary or advisable to the City, upon request of the Commission, for any purpose for which bonds may be issued for the benefit of the Commission under the Enabling Act. Prior to issuing any additional bonds, other than refunding bonds, the Commission is required to prove that the estimated future net revenues of the Commission are expected to be at least 120% of the actual highest combined debt service requirement (including debt service on the proposed additional bonds) for the current fiscal year and for the three fiscal years following the issuance of the additional bonds. The Commission currently reports a maximum debt service coverage ratio of 618%, 666%, and 521%, for the years 2024, 2023, and 2022, respectively.

^{*}Although Capacity fees are allocated to Contributions of Capital, they are available for debt service under the Bond Ordinance

MANAGEMENT'S DISCUSSION AND ANALYSIS

With this continued strong debt service coverage ratio, the Commission has the ability and capacity to issue additional bonds to fund future capital additions to the System. As a result of the increase in capital reserves and strategic planning, the Commission currently anticipates internally funding or applying for grant funds for capital projects within the current long-range Capital Improvement Plan through fiscal year 2030.

Economic Outlook and Final Comments

The economic outlook for the Greenville and Spartanburg Counties continues to show positive trends in several areas. With the continued increase in the receipt of capacity fees received by the Commission, both Greenville and Spartanburg Counties are showing continual developer activity, which coincides with economic growth. Unemployment rates for the Greer area were 3.5 at the end of 2024 and mean household income increased 17.23% from prior year. Population increases in both counties mirror the positive trend the Commission has seen in customer growth.

These positive economic indicators promote the financial health and sustainability of the Commission. The Commission is committed to fiscal responsibility, which is our assurance we will sensibly spend, earn, and generate funds without placing undue hardship on our ratepayers.

The Commission considered a variety of factors in developing the fiscal year 2025 budget, including required rates by utility and customer class, user fees, and other charges. The Commission is required under the Ordinance to set rates and fees at levels which are at least sufficient to provide 100% of the amounts required to be deposited into the Operation and Maintenance Fund for the then current fiscal year, any amounts required to be deposited into any Debt Service Reserve Fund for the then current fiscal year, and any other amounts necessary to comply with the terms of the Bond Ordinance or any other contract or agreement with the Bondholders.

The fiscal year 2025 budget provided for no rate increases in any of the Commission's utility services. For 2025, requirements, such as increasing legislative environmental requirements mandated for our drinking water and wastewater treatment facilities, volatile natural gas, rising health care costs, and the general overall effects of inflation on our day-to-day operating requirements, must be dealt with effectively through the rates and fees charged for our services in order to achieve revenue sufficiency and appropriate levels of debt service coverage for each of the four operating utilities.

The Commission's customer base for each utility is evaluated in consideration of the City and County projected population growth, the impacts of annexations, the general economy, and other known factors affecting each individual utility.

Contacting the Commission's Finance Manager

This financial report is designed to provide our citizens, customers, and creditors with a general overview of the Commission's finances and to demonstrate the Commission's accountability for the money it receives. Questions concerning any of the information in this report or requests for additional information should be directed to the office of Angela M. Karcher, Finance Manager, Greer Commission of Public Works, P.O. Box 216, Greer, South Carolina 29652-0216.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Greer Commission of Public Works (the "Commission") is a municipal utility system established in 1913 to furnish electricity, natural gas, water, and sanitary sewer service to the City of Greer (the "City") and the surrounding area. The Commission is governed by three elected Commissioners and managed by an appointed General Manager.

For its electric service needs, under an all requirements contract, the Commission is a member of Piedmont Municipal Power Agency (PMPA) which owns a 25% undivided ownership interest in Duke Energy's Catawba Nuclear Station Unit 2 and its initial nuclear core. This jointly owned reactor furnishes approximately 96% of the Commission's electrical needs. The Commission also purchases power from the U.S. Department of Energy – Southeastern Power Administration and from the Laurens Electric Cooperative.

In addition to the incorporated City service area, natural gas is provided to five other municipalities. Natural gas supplies are purchased from a variety of sources including Conoco Phillips, BP Energy, Direct Energy, NJR Energy, SW Virginia Gas Company, and other providers and delivered to the Commission's marketing areas via transmission lines owned by Transcontinental Gas Pipeline Corporation. In June 2013, the Commission began participating as a cooperative buyer from Municipal Gas Acquisition and Supply Corporation (MuniGas).

Raw water supply is provided from two reservoirs located approximately 5 miles north of the City. This water undergoes treatment in compliance with the South Carolina Department of Health and Environmental Control and Federal Environmental Protection Agency regulations and is partially softened during the process.

The sanitary sewer system consists of a series of collection mains, as well as a primary sewage treatment plant.

The Commission's significant accounting policies are as follows:

REPORTING ENTITY

This report includes all operations of the Primary Government for which the Commission is financially accountable. The following criteria were used in determining the operations for which financial accountability existed:

- 1. Selection of a majority of the governing board of the unit
- 2. Ability to impose its will upon the unit
- 3. Possibility of the unit to provide a benefit or impose a burden on the Primary Government

There are no component units.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND BASIS OF PRESENTATION

The Commission's accounting records are maintained on the full accrual basis in conformity with accounting principles generally accepted in the United States of America as applicable to governmental entities and substantially in conformity with the Federal Energy Regulatory Commission's Uniform System of Accounts.

The Commission accounts for its activities similar to those found in private business enterprises. The Financial Accounting Standards Board (FASB) and its predecessor organizations have issued accounting and reporting standards for activities in the private sector; however, the Commission has applied all applicable pronouncements issued by the Governmental Accounting Standards Board (GASB).

The Commission reports its activities in a single proprietary fund. Proprietary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of the related cash flows. The accounting objective of this measurement focus is the determination of operating income, changes in net position (or cost recovery), financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND BASIS OF PRESENTATION (CONTINUED)

Enterprise funds are a type of proprietary fund used to account for those operations that are financed and operated in a manner similar to private business or where the governing body has decided that the determination of revenues earned, costs incurred, and/or net income is necessary for management accountability.

Proprietary funds distinguish operating revenue and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Commission are charges to customers for services. The Commission also recognizes origination fees, which are intended to recover the cost of connecting new customers to the system, as operating revenue. Operating expenses for proprietary funds include the cost to provide services, administrative expenses and depreciation and amortization on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Non-exchange transactions, in which the Commission gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants, entitlements, and donations. On the full accrual basis, revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

BUDGETS

The Commission is not required by law to adopt a formal budget; however, the Commission does adopt and maintain a formal budget annually.

CASH AND CASH EQUIVALENTS

For purposes of reporting cash flows, the Commission considers cash on hand, demand deposits and all highly liquid non-equity investments with an original maturity of three months or less when purchased to be cash equivalents.

INVESTMENTS

The Commission's investment policy is designed to operate within existing State of South Carolina statutes that authorize the Commission to invest in the following:

- a. Obligations of the United States of America and agencies thereof;
- b. General obligations of the State of South Carolina or any of its political units;
- c. Financial institutions to the extent that the same are insured by an agency of the federal government;
- d. Certificates of deposit and funds in deposit accounts with banking institutions provided that such certificates and funds in deposit accounts are collaterally insured by securities of the type described in (a) and (b) above, held by a third party as escrow agent, or custodian of a market value, not less than the amount of the certificates or funds in deposit accounts so secured, including interest; provided, however, such collateral shall not be required to the extent the same are insured by an agency of the federal government;
- e. Collateralized repurchase agreements when collateralized by securities as set forth in (a) and (b) above and held by the Commission or a third party as escrow agent or custodian; and
- South Carolina Pooled Investment Fund established and maintained by the State Treasurer.

All investments are stated at their fair values.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

ACCOUNTS RECEIVABLE

Customer receivables represent fees for utility services earned but not yet collected. The Commission recognizes revenue as earned on a monthly basis, based on rates established by the Commission's Board of Commissioners. Due to the fact that the customer meters are read and billed at various times during each month, the Commission estimates unbilled revenues for each of its services delivered to customers between their last respective cycle billing date and December 31, and records that amount as unbilled revenues for the current year. Estimated unbilled revenues as of December 31, 2024 and 2023 were \$5,462,780 and \$4,929,190, respectively. Receivables are reported net of applicable allowances for uncollectible accounts. Management reviews account receivables on a regular basis to determine if any receivables will potentially be uncollectible. The allowance for uncollectible accounts includes amounts estimated through an evaluation of specific accounts, based on the best available facts and circumstances, of customers that may be unable to meet their financial obligations, and a reserve based on historical experience. Management believes that the allowance for uncollectible accounts as of year-end was adequate.

INVENTORIES AND PREPAID EXPENSES

Materials and supplies inventories are valued at average cost, and consists of materials, supplies, and fuel. Prepaid expenses consist of items such as general liability insurance premiums that have been paid during 2024 and 2023 but are recognized over the appropriate accounting periods.

RESTRICTED ASSETS

Restricted assets consist of cash that will be used for future additions to utility plant or to meet debt service obligations on debt issued to fund additions to utility plant, as prescribed by the underlying bond ordinance.

UTILITY PLANTS AND RIGHT-TO-USE LEASE ASSETS

Utility plant and right-to-use lease assets are stated at cost and contributed capital assets are recorded at their acquisition fair value at the date of contribution. Minimum capitalization costs are \$5,000.

Capital assets of the Commission are depreciated or amortized on a straight-line basis over the following estimated useful lives:

	Years		Years
Electric distribution system	25	Operations center	50
Gas distribution system	33	Vehicle maintenance facility	33
Water system	50	Buildings	10
Compressed natural gas station	15	Right-to-use buildings	10
Recreational facilities	25	Fiber optic	10
Disposal plants and sanitary sewer	50	Vehicles and other work equipment	7
Lift stations	20	Office equipment and furniture	6
Finance building	50	Right-to-use equipment	6

Depreciation and amortization expense for the years ended December 31, 2024 and 2023 was \$11,113,934 and \$10,684,102, respectively.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

UTILITY PLANTS AND RIGHT-TO-USE LEASE ASSETS (CONTINUED)

Costs of labor, materials, supervision, and other expenses incurred in making repairs and minor replacements and in maintaining the plant are charged to expense. Plant accounts are charged with the costs of permanent betterments and replacements of plant, including capitalized labor, as appropriate. Donated assets are valued at acquisition value at the date of donation.

LEASES

Lessor: The Commission is the lessor for certain noncancellable leases of buildings and equipment. In accordance with GASB Statement No. 87, Leases, the Commission recognizes a lease receivable and a deferred inflow of resources for deferred lease receipts in accordance with these transactions. At the commencement of a lease, the Commission initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments made. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments made at or before the lease commencement date, less certain other amounts to be paid by the Commission (if any). Subsequently, the deferred inflow of resources is amortized into lease revenue on a straight-line basis over the lease term. Key estimates and judgments related to leases include how the Commission determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments: the lease agreements entered into by the Commission as lessor do not include stated interest rates. Therefore, the Commission generally uses its estimated incremental borrowing rate as the discount rate for leases; the lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease receivable are composed of fixed payments that the Commission will receive over the term of the lease agreement. The Commission monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable and deferred inflow of resources if certain changes occur that are expected to significantly affect the amount of the lease.

Lessee: The Commission is the lessee for certain noncancellable leases of equipment. In accordance with GASB Statement No. 87, Leases, the Commission recognizes a lease liability and a right-to-use lease asset in accordance with these transactions. At the commencement of a lease, the Commission initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, less certain other amounts to be paid by the Commission (if any). Subsequently, the lease asset is amortized into amortization expense on a straight-line basis over the lease term. Key estimates and judgments related to leases include how the Commission determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments: the lease agreements entered into by the Commission as lessee do not include stated interest rates. Therefore, the Commission generally uses its estimated incremental borrowing rate as the discount rate for leases; the lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments that the Commission will make over the term of the lease agreement. The Commission monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease liability and lease asset if certain changes occur that are expected to significantly affect the amount of the lease.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

PENSIONS

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the South Carolina Retirement System (SCRS) and Police Officers Retirement System (PORS) and additions to/deductions from SCRS'/PORS' fiduciary net position have been determined on the same basis as they are reported by SCRS and PORS. For this purpose, benefit payments (including refunds of employer contributions) are recognized when due and payable in accordance with the benefit terms.

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the Statement of Net Position reports a separate section for deferred outflow of resources and deferred inflows of resources. The separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until then. Unamortized charge on refunding reported on the Statement of Net Position and employer pension and OPEB contributions subsequent to the measurement date of the net pension liability and total OPEB liability not included in pension/OPEB expenses are reported as deferred outflows of resources or deferred inflows of resources. Additional pension and OPEB related deferred outflows/inflows of resources reported on the Statement of Net Positions include: (1) differences between expected and actual experience, (2) differences between projected and actual earnings on pension plan investments, (3) changes in actuarial assumptions, and (4) changes in proportion and differences between Commission contributions and proportionate share of pension contributions. The Commission also reports deferred inflows of resources relative to deferred lease receipts which are amortized into lease revenue on a straight-line basis over the lease term.

COMPENSATED ABSENCES

In prior years it has been the Commission's policy to permit employees to accrue earned but unused paid vacation time and general leave. In 2019, the Commission implemented a policy combining paid vacation time and general leave into one category of paid leave that has been earned but unused referred to as personal time off (PTO). PTO vests when earned. Under the new policy, employees with existing leave balances are permitted to accumulate and carry over up to 80 hours of earned but unused PTO. Amounts in excess of 80 hours at year end will be paid out to employees in January of the following year. PTO within the annual carryover limit and the amount earned in excess of 80 hours to be paid to employees in January of the following year is reported as a liability on the Statement of Net Position.

AMORTIZATION

Bond premiums and discounts are recorded and amortized over the life of the respective bonds using a method that approximates the effective interest method.

CAPITAL CONTRIBUTIONS

The Commission receives contributions in aid of construction from customers in the form of capacity fees for water and sewer expansions, from developer contributions, as well as from federal, state, and local grants principally for utility plant.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECLASSIFICATIONS

Certain amounts in the prior year data have been reclassified in order to be consistent with the current year's presentation.

DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Commission has developed a hedging policy, which provides guidelines for the use of natural gas and financial futures, options, and other contracts. The purpose of the hedging policy is to mitigate the risks associated with fluctuations in interest rates and/or natural gas prices.

By using derivative financial instruments to hedge exposures to changes in natural gas prices, the Commission exposes itself to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract.

When the fair value of a derivative contract is positive, the counterparty owes the Commission, which creates credit risk for the Commission. When the fair value of a derivative contract is negative, the Commission owes the counterparty and, therefore, it does not possess credit risk.

The Commission minimizes the credit risk in derivative instruments by entering into transactions with high-quality counterparties. Market risk is the adverse effect on the value of a financial instrument that results from a change in interest rates or commodity prices. The market risk associated with commodity-price contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken.

Cumulative changes in the fair value of hedge contracts are recorded at the time the contracts are closed. At December 31, 2023 and 2024, the Commission had a total of 0 and 12 contracts outstanding, respectively, hedging the natural gas system supply and supply for other specific non-system customers, depending upon the expected month of future delivery. These contracts represent a total outstanding commitment of \$0 and \$2,450,858 at an average cost of \$0 and \$2.79 per dekatherm of natural gas at December 31, 2023 and 2024, respectively.

NET POSITION

Net position is the difference between assets/deferred outflows of resources and liabilities/deferred inflows of resources. Net position comprises the various net earnings from operating and non-operating revenues, expenses and contributions of capital. Net position is classified in the following three components: net investment in capital assets, restricted for debt service and for capital projects, and unrestricted net position. Net investment in capital assets consists of all capital assets, net of accumulated depreciation and amortization and reduced by outstanding debt and other liabilities that is attributable to the acquisition, construction and improvement of those assets; unspent debt proceeds, or other restricted cash and investments is excluded from the determination. Net position restricted for debt service and capital projects consists of net position for which constraints are placed thereon by external parties, such as lenders, grantors, laws, regulations and enabling legislation. Unrestricted net position consists of all other net position not included in the above categories. When both restricted and unrestricted resources are available for use, it is the Commission's policy to use restricted resources first and use unrestricted resources as they are needed.

NOTE 2. PROJECT POWER SALES AGREEMENT

The Commission, as a member of the PMPA, is party to the Catawba Project Power Sales Agreements (the "Sales Agreements"). These Sales Agreements oblige PMPA to provide each member a share of the Catawba Nuclear Station (the "Project") power output and, in turn, each member must pay its share of Project costs.

Members make their payments on a "take-or-pay" basis whether or not the Project is operable or operating. Such payments are not subject to reduction or offset and are not conditioned upon performance by PMPA or any given member. The Sales Agreements are in effect until the earlier of August 1, 2035, or the completion of payments of PMPA's bonds and satisfaction of obligations under the Project agreements. The Commission's share of PMPA's total energy usage was approximately 9.34% in 2024 and 2023.

The Commission, as a member of PMPA, is also party to the Supplemental Power Sales Agreements (the "Supplemental Agreements") under which each member has agreed to pay, in exchange for supplemental bulk power supply costs, its share of supplemental bulk power supply costs. A member may terminate its Supplemental Agreement with ten years advance notice. Accordingly, the Commission provided PMPA advance written notice to terminate the Supplemental Power Sales Agreement on December 31, 2018. The termination will be effective on December 31, 2028. During 2024 and 2023, the Commission purchased \$38,889,320 and \$37,344,856, respectively, from PMPA under the two agreements discussed above. On December 31, 2024 and 2023, amounts due to PMPA of \$3,224,259 and \$3,295,459, respectively, were included in accounts payable.

NOTE 3. CASH AND CASH EQUIVALENTS

At December 31, 2024, the carrying value of deposits included in cash and cash equivalents was \$32,909,885 and the bank balance was \$32,610,054. Additionally at December 31, 2024, the Commission's cash and cash equivalents include petty cash of \$7,746 and deposits with the South Carolina Local Government Investment Pool (LGIP) of \$23,239,740. At December 31, 2023, the carrying value of deposits included in cash and cash equivalents was \$23,017,292 and the bank balance was \$22,780,694. Additionally at December 31, 2023, the Commission's cash and cash equivalents include petty cash of \$7,406 and deposits with the LGIP of \$6,742,853. The bank deposits were covered by federal depository insurance up to \$250,000 and/or fully collateralized with eligible securities held by an agent of the Commission in the Commission's name. The Federal Deposit Insurance Corporation (FDIC) covers \$250,000 for substantially all depository accounts.

INTEREST RATE RISK

Interest rate risk is the risk that rising interest rates will adversely affect the fair value of the Commission's deposits. As outlined in the Commission's investment policy, investment maturities shall be less than two years and maturities shall be staggered in a way that avoids undue concentration in a specific maturity sector. A competitive bidding process is utilized, only allowing a select list of qualified commercial banks to participate.

NOTE 3. CASH AND CASH EQUIVALENTS (CONTINUED)

CREDIT RISK

The deposits of the Commission are invested pursuant to statutes established by the state of South Carolina. The statutes allow for the investment of money in the following investments:

- a) Obligations of the United States and its agencies.
- b) General obligations of the state of South Carolina or any of its political units. Savings and loan association deposits to the extent they are insured by the FDIC.
- c) Certificates of deposit which are collaterally secured by securities of the type described above, held by a third party as escrow agent or custodian, at a fair value not less than the amount of certificates of deposit so secured, including interest; provided, however, such collateral shall not be required to the extent the same are insured by an Agency of the Federal government.
- d) Collateralized repurchase agreements which are collateralized by securities as set forth in (a) and (b) above.

In addition, the South Carolina state statutes authorize the Commission to invest in the LGIP. The LGIP is an investment pool which does not meet the criteria of GASB Statement No. 79 and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the Department does not disclose investment in the LGIP within the fair value hierarchy. As of December 31, 2024 and 2023, the underlying security ratings of the Commission's investment in the LGIP may be obtained from the LGIP's complete financial statements. This investment pool does not have a credit quality rating assigned. These financial statements may be obtained by writing to the State Treasurer's Office, Local Government Investment Pool, Post Office Box 11778, Columbia, South Carolina 29211.

CUSTODIAL CREDIT RISK

For a deposit, custodial credit risk is the risk that in the event of the failure of the counterparty, the Commission will not be able to recover the value of its deposits or collateral securities that are in the possession of an outside party. The Commission's deposits are subject to insurance provided by the FDIC and are fully collateralized with U.S. Treasury, "AAA" rated Federal Agency securities, or general obligations of the state of South Carolina or any of its political units.

CONCENTRATION OF CREDIT RISK

The investment policy of the Commission places no limit on the amount that the Commission may invest in any one issuer. During 2024 and 2023, the Commission had no investments.

NOTE 4. INVENTORIES

Inventories at December 31, 2024 and 2023, consist of the following:

		2024	2023
Electric	\$	7,563,395	\$ 9,447,858
Gas	•	5,516,079	6,135,821
Water and sewer		1,841,081	2,082,798
Other		17,746	19,174
Gasoline		37,475	41,722
Total Inventories	\$	14,975,776	\$ 17,727,373

NOTE 5. UTILITY PLANT

The following is a summary of changes in utility plant as of December 31, 2024:

	December 31, 2023	Additions	Classification Transfers	Disposals	December 31, 2024
Utility plant not being depreciated:

REVENUE BONDS AND STATE REVOLVING FUND LOANS PAYABLE

Revenues bonds payable consist of bonded indebtedness secured by statutory liens on the pledged revenues. The revenue bonds, together with the interest thereon, are payable from revenues derived by the Commission from the operation of its systems and monies on deposit in any fund or account established pursuant to the bond ordinance. The Commission is required to comply with various limitations, restrictions and covenants contained in the various bond indentures and ordinances. In the event of default by the Commission, the lender may declare the outstanding principal and all unpaid interest accrued to be due and payable immediately.

State Revolving Fund loans payable were entered into by the Commission and the South Carolina State Revolving Fund Program to finance the acquisition and construction water and wastewater facilities and infrastructure. The loans, together with the interest thereon, are payable from revenues derived by the Commission from the operation of its systems and monies on deposit in any fund or account established pursuant to the loan agreements. The Commission is required to comply with various limitations, restrictions and covenants contained in the various loan agreements and ordinances. In the event of default by the Commission, the lender may declare the outstanding principal and all unpaid interest accrued to be due and payable immediately.

LEASES

Leases payable consist of noncancellable leases in which the Commission is the lessee for various right-to-use assets.

NOTE 6. LONG-TERM LIABILITIES (CONTINUED)

Long-term debt payable as of December 31, 2024 and 2023 are as follows:

	2024	2023
Revenue Bonds:		
\$25,060,000 Series 2002 Combined Utility System Revenue Bond used to fund construction and acquisition of certain improvements of utility plants; interest at 3.00% to 5.50%; principal payable annually starting September 1, 2005 and interest payable semi-annually through September 1, 2032.	\$ 21,020,000	\$ 21,330,000
\$5,700,000 Series 2007 Combined Utility System Revenue Bond used to fund construction and acquisition of certain improvements of utility plants; interest at 4.02%; principal payable annually starting September 1, 2008 and interest payable annually through September 2027.	1,165,537	1,524,415
\$4,590,000 Series 2015 Combined Utility System Refunding Bond used to refund Series 2010 Combined Utility System Revenue Bonds; interest at 2.10%; principal payable annually starting September 1, 2016 and interest payable annually through September 1, 2025.	500,000	990,000
\$14,740,000 Series 2017 Combined Utility System Refunding Bond used to refund Series 2009 Combined Utility System Revenue Bonds; interest at 1.99%; principal payable annually starting September 1, 2017 and interest payable annually through September 1, 2025.	1,945,000	3,850,000
\$15,115,000 Series 2024 Combined Utility System Revenue Bond used to fund construction and acquisition of certain improvements of gas systems; interest at 4.00% to 5.00%; principal payable annually starting March 1, 2025 and interest payable semi-annually through September 1, 2044.	15,115,000	-
State Revolving Fund Loans:		
South Carolina Water Quality Revolving Fund loan to finance the Water Treatment Plant Upgrade Project; interest at 2.25%; quarterly installments through August 1, 2034.	3,831,102	4,178,708
South Carolina Water Quality Revolving Fund loan to finance the Water Transmission and Distribution System Improvements Project, interest at 2.25%; quarterly installments through February 1, 2034.	3,121,073	3,421,302
South Carolina Water Quality Revolving Fund loan to finance the upgrading and expanding of the Maple Creek Waste Water Treatment Plant Project; interest at 2.25%; quarterly installments through March 1, 2029.	3,435,567	4,197,430
South Carolina Water Quality Revolving Fund loan to finance the construction of a 1.5 million gallon Elevated Water Tank and Transmission Main, interest at 2.25%; quarterly installments through January 1, 2041; partially funded by American Recovery and Reinvestment Act ("ARRA") in the amount of \$2,000,000,		
interest at 0.0%.	3,129,958	3,291,294 (continued)

NOTE 6. LONG-TERM LIABILITIES (CONTINUED)

DEFEASED BONDS

In prior years, the Commission defeased outstanding debt issues by issuing new debt and depositing the proceeds in an irrevocable trust to provide for all future debt service payments of the old debt. Thus, the defeased debt and the irrevocable trust are not a part of the financial statements. The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt which is included in the accompanying financial statements as bond defeasance loss and is being amortized as interest expense over the term of the new debt.

In June 2017, the Commission issued \$14,740,000 of refunding bonds at an interest rate of 1.99% to defease the remaining outstanding bonds, net of all cost of debt, of the Series 2009 Combined Utility System Revenue bonds in the amount of \$14,535,000. The Commission completed the refunding to reduce its total debt service payments over a period of 9 years by \$1,433,773 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$1,033,197.

At December 31, 2024 and 2023, the amount of defeased bonds principal outstanding and unpaid by the Trustee was \$4,640,000 and \$9,085,000, respectively.

POST-CLOSURE CARE COSTS - SOLID WASTE LANDFILLS

On October 9, 1991, Federal regulations issued by the Environmental Protection Agency (EPA) placed specific requirements pertaining to the closing of municipal solid waste landfills as well as post-closure maintenance for a period of 30 years after closure. During 2003, the Commission recorded a \$435,000 landfill post-closure liability for its South Tyger Monofill landfill. Under the EPA rulings, this amount is to be amortized over the remaining life of the post-closure period, which is 15 years. During a review by independent engineers in September 2017, the landfill post-closure liability was reduced to \$245,300, a decrease of \$42,700, and will be amortized over the remaining post-closure period. For the years ended December 31, 2024 and 2023, amortization in the amount of \$10,460 and \$12,350, respectively, was recorded against related expenses. Actual cost for post-closure care may vary due to inflation, developments in technology, or changes in laws and regulations.

NOTE 7. LEASES

NOTE 8. EMPLOYEE RETIREMENT PLANS

PENSION PLANS

The South Carolina Public Employee Benefit Authority (PEBA), created July 1, 2012, is the state agency responsible for the administration and management of the various Retirement Systems and retirement programs of the state of South Carolina, including the State Optional Retirement Program and the S.C. Deferred Compensation Program, as well as the state's employee insurance programs. As such, PEBA is responsible for administering the South Carolina Retirement Systems' five defined benefit pension plans. PEBA has an 11-member Board of Directors, appointed by the Governor and General Assembly leadership, which serves as custodian, co-trustee and co-fiduciary of the Systems and the assets of the retirement trust funds. The Retirement System Investment Commission (Commission as the governing body, RSIC as the agency), created by the General Assembly in 2005, has exclusive authority to invest and manage the retirement trust funds' assets. The Commission, an eight-member board, serves as co-trustee and co-fiduciary for the assets of the retirement trust funds. By law, the State Fiscal Accountability Authority (SFAA), which consists of five elected officials, also reviews certain PEBA Board decisions regarding the actuary of the Systems.

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Systems and additions to/deductions from the Systems fiduciary net position have been determined on the accrual basis of accounting as they are reported by the Systems in accordance with generally accepted accounting principles (GAAP). For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

PEBA issues an Annual Comprehensive Financial Report (ACFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The ACFR is publicly available through PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, retirement trust fund financial information is also included in the ACFR of the state.

Plan Descriptions

The South Carolina Retirement System (SCRS), a cost–sharing multiple-employer defined benefit pension plan, was established July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits for teachers and employees of the state and its political subdivisions. SCRS covers employees of state agencies, public school districts and participating charter schools, public higher education institutions, other participating local subdivisions of government and first-term individuals elected to the South Carolina General Assembly at or after the general election in November 2012.

The South Carolina Police Officers Retirement System (PORS), a cost–sharing multiple-employer defined benefit pension plan, was established July 1, 1962, pursuant to the provisions of Section 9-11-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits to police officers and firefighters. PORS also covers peace officers, coroners, probate judges and magistrates.

NOTE 8. EMPLOYEE RETIREMENT PLANS (CONTINUED)

PENSION PLANS (CONTINUED)

Membership

Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements is presented below.

SCRS - Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals first elected to the South Carolina General Assembly at or after the general election in November 2012. A member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

PORS - To be eligible for PORS membership, an employee must be required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; be a coroner in a full-time permanent position; or be a peace officer employed by the Department of Corrections, the Department of Juvenile Justice or the Department of Mental Health. Probate judges and coroners may elect membership in PORS. Magistrates are required to participate in PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to this work, unless exempted by statute. A member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

Benefits

Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current annual salary. A brief summary of benefit terms for the system is presented below.

SCRS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five or eight years earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or \$500 every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

NOTE 8. EMPLOYEE RETIREMENT PLANS (CONTINUED)

PENSION PLANS (CONTINUED)

Benefits (Continued)

PORS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age. Both Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Accidental death benefits are also provided upon the death of an active member working for a covered employer whose death was a natural and proximate result of an injury incurred while in the performance of duty.

The retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or \$500 every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase.

Contributions

Actuarial valuations are performed annually by an external consulting actuary to ensure applicable contribution rates satisfy the funding parameters specified in Title 9 of the South Carolina Code of Laws. Under these provisions, SCRS and PORS contribution requirements must be sufficient to maintain an amortization period for the financing of the unfunded actuarial accrued liability (UAAL) over a period that does not exceed the number of years scheduled in state statute. Effective July 1, 2017, employee rates were increased to a capped rate of 9.00 percent for SCRS and 9.75 percent for PORS. The legislation also increased employer contribution rates beginning July 1, 2017, for both SCRS and PORS until reaching 18.56 percent for SCRS and 21.24 percent for PORS. The legislation included a further provision that if the schedule contributions are not sufficient to meet the funding periods set in statute, the PEBA board would increase the employer contribution rates as necessary to meet the funding periods set for the applicable year.

Pension reform legislation modified statutes such that the employer contribution rates for SCRS and PORS to be further increased, not to exceed one-half of one percent in any one year, if necessary, in order to improve the funding of the plans. The statute set rates intended to reduce the unfunded liability of SCRS and PORS to the maximum amortization period for 20 years from 30 years over a ten-year schedule, as determined by the annual actuarial valuations of the plan. Finally, under the revised statute, the contribution rates for SCRS and PORS may not be decreased until the plans are at least 85 percent funded.

NOTE 8. EMPLOYEE RETIREMENT PLANS (CONTINUED)

PENSION PLANS (CONTINUED)

Contributions (Continued)

The Commission contributed \$1,699,741 to the SCRS Plan and \$20,659 to the PORS Plan for the year ended December 31, 2024, and contributed \$1,520,622 to the SCRS Plan and \$19,408 to the PORS Plan for the year ended December 31, 2023.

Required employee contribution rates during the year ended December 31, 2024 and 2023, are as follows:

- SCRS 9.00% of earnable compensation from January 1st through December 31st
- PORS 9.75% of earnable compensation from January 1st through December 31st

Required employer contribution rates during the year ended December 31, 2024, are as follows:

SCRS

- 18.56% of earnable compensation from January 1st through December 31st
- Employer incidental death benefit: 0.15% of earnable compensation.

PORS

- 21.24% of earnable compensation from January 1st through December 31st
- Employer incidental death benefit: 0.20% of earnable compensation.
- Employer accidental death benefit: 0.20% of earnable compensation.

Required employer contribution rates during the year ended December 31, 2023, are as follows:

SCRS

- 17.41% of earnable compensation from January 1st through June 30th
- 18.41% of earnable compensation from July 1st through December 31st
- Employer incidental death benefit: 0.15% of earnable compensation.

PORS

- 19.84% of earnable compensation from January 1st through June 30th
- 20.84% of earnable compensation from July 1st through December 31st
- Employer incidental death benefit: 0.20% of earnable compensation. Employer accidental death benefit: 0.20% of earnable compensation.

Net Pension Liability

At December 31, 2024 and 2023, the Commission reported liabilities of \$14,910,019 and \$16,245,881, respectively, for its proportionate share of the SCRS net pension liability and \$145,064 and \$201,228, respectively, for its proportionate share of the PORS net pension liability. The net pension liabilities as of December 31, 2024 and 2023 were measured as of June 30, 2024 and June 30, 2023, respectively, and the total pension liabilities used to calculate the net pension liabilities were determined by an actuarial valuation as of July 1, 2023, and July 1, 2022, respectively, rolled-forward to the respective measurement dates using generally accepted actuarial principles.

NOTE 8. EMPLOYEE RETIREMENT PLANS (CONTINUED)

PENSION PLANS (CONTINUED)

Net Pension Liability (Continued)

The Commission's proportionate share of the net pension liability was based on a projection of the Commission's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2024 (measurement date for reporting at December 31, 2024), the Commission's proportionate shares of the SCRS plan was 0.063581%, which was 0.003613% lower than its proportionate share of the net pension liability measured as of June 30, 2023 (measurement date for reporting at December 31, 2023). At June 30, 2024 (measurement date for reporting at December 31, 2024), the Commission's proportionate shares of the PORS plan was 0.004836%, which was 0.001774% lower than its proportionate share of the net pension liability measured as of June 30, 2023 (measurement date for reporting at December 31, 2023).

Pension Expense

For the years ended December 31, 2024 and 2023, the Commission recognized pension expense for the SCRS plan of \$1,151,038 and \$1,498,491, respectively. For the years ended December 31, 2024 and 2023, the Commission recognized pension expense for the PORS plan of (\$7,930) and \$10,649, respectively. For the years ended December 31, 2024 and 2023, the Commission recognized a total pension expense for the SCRS plan and PORS plan of \$1,143,108 and \$1,509,140, respectively.

Deferred Inflows of Resources and Deferred Outflows of Resources

At December 31, 2024 and 2023, the Commission reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources for the SCRS and PORS plans:

	2024					2023				
	0	Deferred Outflows of Resources		Deferred Inflows of Resources		Deferred utflows of Resources	Deferred Inflows of Resources			
SCRS										
Difference between expected and actual experience	\$	489,996	\$	18,504	\$	282,057	\$	45,052

NOTE 8. EMPLOYEE RETIREMENT PLANS (CONTINUED)

PENSION PLANS (CONTINUED)

Deferred Inflows of Resources and Deferred Outflows of Resources (Continued)

The \$866,548 and \$10,454 reported as deferred outflows of resources related to pensions resulting from Commission contributions subsequent to the measurement date for the SCRS and PORS plans, respectively during the year ended December 31, 2024, will be recognized as a reduction of the net pension liabilities in the year ending December 31, 2025. The \$788,427 and \$10,054 reported as deferred outflows of resources related to pensions resulting from Commission contributions subsequent to the measurement date for the SCRS and PORS plans, respectively during the year ended December 31, 2023, was recognized as a reduction of the net pension liabilities in the year ending December 31, 2024.

As of December 31, 2024, other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Measurement Year Ending June 30:	SCRS PORS				Total			
2025	\$ (581,726)	\$	(28,710)	\$	(610,436)			
2026	249,002		(15,103)		233,899			
2027	(161,624)		(9,147)		(170,771)			
2028	(150,864)		(2,151)		(153,015)			
Total	\$ (645,212)	\$	(55,111)	\$	(700,323)			

Actuarial Assumptions and Methods

Actuarial valuations of the ongoing plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. The GASB Statement No. 67 valuation report prepared as of June 30, 2024 is based on the experience study report for the period ending June 30, 2019. A more recent experience report on the Systems was issued for the period ending June 30, 2023 and will be used for future valuations.

The June 30, 2024, total pension liability (TPL), net pension liability (NPL), and sensitivity information shown in this report were determined by our consulting actuary, Gabriel Roeder Smith & Company (GRS) and are based on an actuarial valuation performed as of July 1, 2023. The total pension liability was rolled-forward from the valuation date to the plans' fiscal year end, June 30, 2024, using generally accepted actuarial principles. There was no legislation enacted during the 2024 legislative session that had a material change in the benefit provisions for any of the systems.

The following table provides a summary of the actuarial assumptions and methods used in the July 1, 2023 valuation to calculate the Total Pension Liability as of the June 30, 2024 measurement date.

	SCRS	PORS
Actuarial cost method	Entry age normal	Entry age normal
Actuarial assumptions:		
Investment rate of return	7.00%	7.00%
Inflation	2.25%	2.25%
Projected salary increases	3.0% to 11.0% (varies by service)	3.5% to 10.5% (varies by service)
(Includes inflation at)	2.25%	2.25%
Benefits adjustments	Lessor of 1% or \$500 annually	Lessor of 1% or \$500 annually

NOTE 8. EMPLOYEE RETIREMENT PLANS (CONTINUED)

PENSION PLANS (CONTINUED)

Actuarial Assumptions and Methods (Continued)

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumptions, the 2020 Public Retirees of South Carolina Mortality table (2020 PRSC), was developed using the Systems' mortality experience. These base rates are adjusted for future improvement in mortality using 80% of Scale UMP projected from the year 2020.

Former Job Class	Males	Females
General Employees and Members of the General		
Assembly (SCRS)	2020 PRSC Males multipled by 97%	2020 PRSC Females multipled by 107%
Public Safety and Firefighters (PORS)	2020 PRSC Males multiplied by 127%	2020 PRSC Females multiplied by 107%

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments is based upon 20-year capital market assumptions. The long-term expected rates of return represent assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market-based inputs. Expected returns are net of investment fees. The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2024 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the table on the following page. For actuarial purposes, the 7 percent assumed annual investment rate of return used in the calculation of the TPL includes a 4.75 percent real rate of return and a 2.25 percent inflation component.

		Expected	Long-term Expected
	Policy	Arithmetic Real	Portfolio Real
Allocation / Exposure	Target	Rate of Return	Rate of Return
Public Equity	46.0%	6.23%	2.86%
Bonds	26.0%	2.60	0.68%
Private Equity	9.0%	9.60%	0.86%
Private Debt	7.0%	6.90%	0.48%
Real Assets	12.0%		
Real Estate	9.0%	4.30%	0.39%
Infrastructure	3.0%	7.30%	0.22%
Total Expected Return	100.0%	_	5.49%
Inflation for Actuarial Purposes		_	2.25%
			7.74%

NOTE 8. EMPLOYEE RETIREMENT PLANS (CONTINUED)

PENSION PLANS (CONTINUED)

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS and PORS will be made based on the actuarially determined rates based on provisions in the South Carolina Code of Laws. Based on those assumptions, the System's fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity Analysis

The following table presents the Commission's proportionate share of the net pension liabilities as of December 31, 2024 (June 30, 2024 measurement date) of the respective plans calculated using the discount rate of 7.00%, as well as what the Commission's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1.00% lower (6.00%) or 1.00% higher (8.00%) than the current rate.

Commission's Proportionate Share of Net Pension Liability	,	1% Decrease (6.00%)		current Discount Rate (7.00%)	1% Increase (8.00%)
SCRS	\$	19,321,699	\$	14,910,019	\$ 10,847,210
PORS		210,170		145,064	91,739
	\$	19,531,869	\$	15,055,083	\$ 10,938,949

The following table presents the Commission's proportionate share of the net pension liabilities as of December 31, 2023 (June 30, 2023 measurement date) of the respective plans calculated using the discount rate of 7.00%, as well as what the Commission's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1.00% lower (6.00%) or 1.00% higher (8.00%) than the current rate.

Commission's Proportionate								
Share of Net Pension	1% Decrease		С	urrent Discount	1% Increase			
Liability		(6.00%) Rate (7.00%)				(8.00%)		
SCRS	\$	20,991,227	\$	16,245,881	\$	12,301,713		
PORS		283,863		201,228		133,540		
	\$	21,275,090	\$	16,447,109	\$	12,435,253		

Pension Plan Fiduciary Net Position

The net pension liability is calculated separately for each system and represents that particular system's total pension liability determined in accordance with GASB Statement No. 67 less that System's fiduciary net position. As of June 30, 2024 (measurement date for the Commission's year ended December 31, 2024), net pension liability amounts for SCRS and PORS are as follows:

	Total Pension	Plan Fiduciary Net	Employers' Net Pension	Plan Fiduciary Net Position as a Percentage of the
System	Liability	Position	Liability	Total Pension Liability
SCRS	\$ 61,369,806,968	\$ 37,919,492,371	\$ 23,450,314,597	61.8%
PORS	10.177.904.231	7.178.118.865	2.999.785.366	70.5%

NOTE 8. EMPLOYEE RETIREMENT PLANS (CONTINUED)

PENSION PLANS (CONTINUED)

Pension Plan Fiduciary Net Position (Continued)

As of June 30, 2023 (measurement date for the Commission's year ended December 31, 2023), net pension liability amounts for SCRS and PORS are as follows:

	Total	Plan	Employers'	Plan Fiduciary
	Pension	Fiduciary Net	Net Pension	Net Position as a Percentage of the
System	Liability	Position	Liability	Total Pension Liability
SCRS	\$ 58,464,402,454	\$ 34,286,961,942	\$ 24,177,440,512	58.6%
PORS	9,450,021,576	6,405,925,370	3,044,096,206	67.8%

The total pension liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System's notes to the financial statements and required supplementary information.

Detailed information regarding the fiduciary net position of the plans administered by PEBA is available in the separately issued ACFR containing financial statements and required supplementary information for SCRS which can be accessed via the contact information provided above.

Employees of the Commission are eligible to participate into two additional programs that allow for income tax deferral through the South Carolina Deferred Compensation Program, specifically in either a 401(k) or 457 plan. Participation in these programs allows an employee to defer up to the maximum amount permissible by the Internal Revenue Service for the respective deferral period. These programs are fully funded by the employee only; thus, no matching funds are provided by the Commission.

NOTE 9. OTHER POSTEMPLOYMENT BENEFITS

PLAN DESCRIPTION

Other postemployment benefits (OPEB) are part of the total compensation offered to attract and retain the services of qualified employees. The Commission provides other postemployment benefits under a single-employer benefit plan that provides medical and dental insurance for retired employees and their spouses based on the years of service at the time of retirements. There are no plan assets accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. A retiring employee from the Commission who has served at least 30 years in a full time, regular position, is eligible to elect post-retirement insurance coverage, for a maximum of 3 years, or Medicare eligibility, whichever comes first.

In addition to the requirements shown on the following page, retirees must also meet the class rules. Class One employees are those that qualified for retirement with the Commission prior to July 1, 2010. Class Two employees are those employees that qualify for retirement with the Commission on or after July 1, 2010. Spouses of eligible participants are eligible for a maximum of three years of post-retirement insurance coverage.

NOTE 9. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

PLAN DESCRIPTION (CONTINUED)

Employees qualifying for retirement prior to July 1, 2010 (Class 2):

- At age 60 and with 10 years of earned service and 15 years of service qualification with the South Carolina Retirement System (SCRS) or Police Officer's Retirement System (PORS). The participant will pay 100% of the funded premium rates for participant and qualifying spouse.
- At age 60 and with 20 years of earned service and 25 years of service qualification with the SCRS, or PORS. The Commission will pay 100% of the funded premium rate for the participant and qualifying spouse.
- At any age and with 15 years of earned service and 30 years of service qualification with the SCRS or PORS. The Commission will pay 100% of the funded premium rate for the participant and qualifying spouse.
- At any age and with 15 years of earned service and 28 years of service qualification with the SCRS or PORS.

Employees qualifying for retirement on or after July 1, 2010 (Class 3):

 At age 62 and with 30 years of earned service and 30 years of service qualification with the South Carolina Retirement System (SCRS) or Police Officer's Retirement System (PORS). The Commission will pay 100% of the funded premium rate for the participant and qualifying spouse for a maximum of 3 years, or Medicare eligibility, whichever comes first.

The following table provides a summary of the number of participants in the plan as of December 31:

	2024	2023
Inactive plan members or beneficiaries currently receiving benfits	10	10
Active plan members	101	101
Total plan members	111	111

The health plan is financed on a pay-as-you-go basis. As of December 31, 2024, and 2023, retirees in postemployment status that were eligible for benefits under the Plan included eight members, respectively.

TOTAL OPEB LIABILITY

The Commission's total OPEB liability as of December 31, 2024 and 2023 was measured as of December 31, 2023 and December 31, 2022, respectively. The total OPEB liability at the December 31, 2023 and December 31, 2022 measurement date were determined by an actuarial valuation as of December 31, 2022. Actuarial values are performed biannually. As of December 31, 2024 (December 31, 2023 measurement date) the Commission's total OPEB liability amounted to \$692,484. As of December 31, 2023 (December 31, 2022 measurement date) the Commission's total OPEB liability was \$790,204.

NOTE 9. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

ACTUARIAL ASSUMPTIONS AND OTHER INPUTS

The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions and other inputs:

Valuation Date December 31, 2022

Methods and assumptions

Discount rate 3.72% as of the December 31, 2022 measurement date

3.26% as of the December 31, 2023 measurement date

Salary increases 3.00% to 10.50%

Mortality Based on the PUB-2010 Mortality Table for Employees with a 135% multiplier

to better reflect the anticipated experience and provide margin for future improvements

Health care trend rates 7.00% for 2023, declining to an ultimate rate of 4.50% by 2033

Participation rates 100% of active participants are assumed to elect coverage into retirement;

50% of active participants are assumed to cover a spouse into retirement

Other information

Notes There were no benefit changes during the year

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revisions as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of December 31, 2023 (measurement date) and the current sharing pattern of costs between employer and inactive employees.

DISCOUNT RATE

For plans that do not have formal assets, the discount rate should equal the tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with and average AA credit rating as of the measurement date. For the purpose of the Commission's valuation for the December 31, 2023 measurement date, the municipal bond index rate is 3.26% (based on the daily rate equal to the Fidelity Index's "20-year Municipal GO AA Index") which was a decrease from the December 31, 2022 measurement date rate of 3.72%.

CHANGES IN TOTAL OPEB LIABILITY

The below schedule shows the changes in the total OPEB liability for the years ending December 31, 2024 and 2023:

	2024	2023
Beginning balance at January 1,	\$ 790,204	\$ 776,669
Changes for the year:		
Service cost	18,967	29,713
Interest	28,194	15,687
Differences between expeced and actual experience	(104,599)	75,133
Changes in assumptions	24,912	(76,476)
Benefit payments	(65,194)	(30,522)
Net changes	(97,720)	13,535
Ending balance at December 31,	\$ 692,484	\$ 790,204

NOTE 9. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

SENSITIVITY OF THE TOTAL OPEB LIABILITY TO CHANGES IN DISCOUNT RATE

The following table presents the plan's total OPEB liability at December 31, 2024 (December 31, 2023 measurement date); calculated using a discount rate of 3.26%, as well as what the plan's total OPEB liability would be if it were calculated using a discount rate that is one percent lower or one percent higher:

	1% Decrease	Discount Rate	1% Increase
	(2.26%)	(3.26%)	(4.26%)
Total OPEB Liability	\$750,996	\$692,484	\$639,891

The following table presents the plan's total OPEB liability at December 31, 2023 (December 31, 2022 measurement date); calculated using a discount rate of 3.72%, as well as what the plan's total OPEB liability would be if it were calculated using a discount rate that is one percent lower or one percent higher:

	1% Decrease	Discount Rate	1% Increase
	(2.72%)	(3.72%)	(4.72%)
Total OPEB Liability	\$846,693	\$790,204	\$739,474

SENSITIVITY OF THE TOTAL OPEB LIABILITY TO CHANGES IN HEALTHCARE COST TREND RATES

The following table presents the plan's total OPEB liability as of December 31, 2024 (December 31, 2023 measurement date); calculated using the assumed healthcare cost trend rates as well as what the plan's total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percent lower or one percent higher:

		Current	
	1% Decrease	Trend Rate	1% Increase
	(6.00% - 3.50%)	(7.00% - 4.50%)	(8.00% - 5.50%)
Total OPEB Liability	\$620,358	\$692,484	\$780,046

The following table presents the plan's total OPEB liability as of December 31, 2023 (December 31, 2022 measurement date); calculated using the assumed healthcare cost trend rates as well as what the plan's total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percent lower or one percent higher:

		Current	
	1% Decrease	Trend Rate	1% Increase
	(6.00% - 3.50%)	(7.00% - 4.50%)	(8.00% - 5.50%)
Total OPEB Liability	\$728,569	\$790,204	\$864,611

OPEB EXPENSE AND DEFERRED OUTFLOWS/INFLOWS OF RESOURCES RELATED TO OPEB

Differences between expected and actual experience and changes in assumptions are recognized in OPEB expense using a systematic and rational method over a closed period of equal to the average of the expected remaining service lives of all employees that are provided with OPEB through the OPEB plan (active and inactive employees) determined as of the beginning of the measurement period.

At the beginning of the current measurement period, the average of the expected remaining service lives of all active employees for the purposes of recognizing the applicable deferred outflows and inflows of resources established in the current measurement period was approximately 11.06 years.

NOTE 9. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

OPEB EXPENSE AND DEFERRED OUTFLOWS/INFLOWS OF RESOURCES RELATED TO OPEB (CONTINUED)

Deferred outflows of resources and deferred inflows of resources related to OPEB at December 31, 2024 and 2023 were as follows:

	Decembe	r 31, 2	024	December 31, 2023				
Deferi	red Outflows	rred Inflows	Defer	red Outflows	Defe	rred Inflows		
of F	Resources	of	Resources	of I	Resources	of	Resources	
\$	114,204	\$	457,071	\$	128,953	\$	435,634	
	181,724		674,499		186,032		808,665	
	60,000		-		60,000		-	
\$	355,928	\$	1,131,570	\$	374,985	\$	1,244,299	
		Deferred Outflows of Resources \$ 114,204 181,724 60,000	Deferred Outflows of Resources Deference of	of Resources of Resources \$ 114,204 \$ 457,071 181,724 674,499 60,000 -	Deferred Outflows of Resources Deferred Inflows of Resources Deferred Inflows of Resources Deferred Inflows of Resources \$ 114,204 \$ 457,071 181,724 674,499 \$ 60,000 -	Deferred Outflows of Resources Deferred Inflows of Resources Deferred Outflows of Resources \$ 114,204 \$ 457,071 181,724 \$ 674,499 \$ 186,032 60,000 - 60,000	Deferred Outflows of Resources Deferred Inflows of Resources Deferred Outflows of Resources \$ 114,204 \$ 457,071 \$ 128,953 \$ 186,032 60,000 - 60,000	

As of December 31, 2024, deferred outflows of resources of \$60,000 related to OPEB resulting from the Commission's contributions subsequent to the measurement date will be recognized as a reduction of the OPEB liability in the year ended December 31, 2025. As of December 31, 2023, deferred outflows of resources of \$60,000 related to OPEB resulting from the Commission's contributions subsequent to the measurement date were recognized as a reduction of the OPEB liability in the year ended December 31, 2024. As of December 31, 2024, other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended December 31:	
2025	\$ (173,359)
2026	(173,359)
2027	(173,359)
2028	(173,359)
2029	(128,419)
Thereafter	 (13,787)
	\$ (835,642)

For the years ended December 31, 2024 and 2023, the Commission recognized OPEB expense of (\$126,198) and (\$120,754), respectively, as follows:

OPEB Expense	Decembe	er 31, 2024	Decembe	r 31, 2023
Service cost	\$	18,967	\$	29,713
Interest on the total OPEB liability		28,194		15,687
Expensed portion of current-period differences between				
expected and actual experience		(9,457)		6,793
Expensed portion of current-period changes in assumptions		2,252		(6,915)
Amortization of Deferred Outflow and Inflow of Resources:				
Beginning deferred outflows of resources		41,717		34,924
Beginning deferred inflows of resources		(207,871)		(200,956)
Total OPEB Expense	\$	(126, 198)	\$	(120,754)

NOTE 10. RISK MANAGEMENT

The Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Commission is insured under policies through the South Carolina Budget and Control Board, Office of the Insurance Reserve Fund (the "Fund") that is a public entity risk pool. The Commission pays premiums to the Fund for its general liability, property, and accidental insurance. The agreement for formation of the Fund provides that the Fund will be self-sustaining through member premiums and will reinsure through commercial companies for each insured event. The Commission carries general liability insurance with coverage of up to \$1,000,000 per occurrence for bodily injury; and a public official's and employee liability with coverage of up to \$1,000,000 per occurrence.

The Commission participates in a self-funded insurance plan (the "Plan") whereby the Commission is responsible for the payment of health care claims, administrative costs, and other liabilities incurred by covered active and post-retirement employees. The Plan administrator provides the Commission with an expected claims liability for each fiscal year. These estimates are based upon the Commission's claims history, claims processed following the close of the Plan's year end, and other industry factors. The Commission subsequently purchased a stoploss insurance plan to ensure the Commission does not pay in excess of 125% of expected claims. Changes in reported liabilities are as follows:

Year Ended		Beginning	Cla	ims and Changes		Claims/		Ending	
December 31,	ecember 31, Balance			in Estimates	F	Payments	Balance		
2024)24 \$ 2,626,887 \$		2,133,260	\$	2,160,889	\$	2,599,258		
2023		2,203,076		2,114,081		1,690,270		2,626,887	

It is the policy of the Commission to provide group health insurance for all its full-time employees and Commissioners. These health insurance policies are administered by a third party.

The Commission also participates in the South Carolina Municipal Insurance Trust (SCMIT) for workers' compensation insurance coverage up to the statutory limits. This is a public entity risk pool operating as a common risk management and insurance program. The Commission pays premiums to SCMIT for this coverage. The Trust uses reinsurance agreements to reduce its exposure to large workers' compensation losses. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage in the past fiscal years.

NOTE 11. RELATED PARTY TRANSACTIONS

In 2024 and 2023, the Commission and the City of Greer verbally agreed to addendums to the existing 10-year agreement whereby the Commission makes a fixed payment to the City each year. The Commission recognized expenses of \$1,000,000 in each of 2024 and 2023, respectively.

NOTE 12. CONTRIBUTIONS AND CAPITAL IMPROVEMENT GRANTS

The Commission receives capital improvement grants from federal, state, and local government agencies to finance the planning and construction of various water projects. Upon completion of the projects, the Commission is required to have independent audits of grant funds. Such audits could lead to a request for reimbursement to the grantor agencies for expenditures disallowed under the terms of the agreement.

The Commission receives developer contributed assets from various developers during the year of which become property of the Commission for future maintenance. The Commission's policy has been to require residential and commercial developers in need of sewer and water services to develop the needed infrastructure at their costs and then to donate the assets to the Commission at the donated assets acquisition value.

Beginning in September 2000, the Commission initiated a policy of charging developers and consumers capacity fees related to the direct capitalization cost of installing new services in previously undeveloped parts of its service area, with respect to the waterworks and sanitary sewer systems. These fees serve to recover a portion of the economic impact to the Commission directly relating to these system expansions and may be used to pay a portion of the debt service on debt issued to fund such improvements. Capacity fees are recorded as contributions by the Commission.

Contributions for the years ended December 31, 2024 and 2023 are reported in the Statements of Revenues, Expenses, and Changes in Net Position as revenues, rather than as directed additions to contributed capital. Developer and consumer capacity fees of \$2,057,600 and \$1,684,700 and capital contributions of \$3,036,313 and \$4,937,766, respectively, are included in contributions.

NOTE 13. PURCHASED GAS ADJUSTMENT

The Commission has a purchased gas adjustment (PGA) mechanism in place to absorb fluctuations in the cost of natural gas. The Commission amended the PGA to provide the ability to spread the collection of accumulated price spikes over longer periods of time to minimize the impacts on its customers.

The PGA calculation records the actual value paid for the commodity during any month and provides the ability to charge the customer with a price per therm of consumption that would cover a portion of accumulated unbilled amounts, while remaining competitive with other providers in the existing market environment. This future recovery of the cost of natural gas not yet billed is expected to be completed over the course of future billing periods. As of December 31, 2024 and 2023, the Commission had no accumulated unbilled PGA costs.

NOTE 14. PURCHASED POWER ADJUSTMENT

The Commission has a purchased power adjustment (PPA) mechanism in place to absorb fluctuations in the cost of electricity. The Commission approved in 2015 the PPA to provide the ability to spread the collection of accumulated price spikes in the second succeeding billing month to minimize the impacts on its customers.

Annually, estimates of the power sales and costs are developed for budgetary purposes and rate setting. The PPA calculation is designed to recover the difference between the Commission's actual cost of purchased power and the estimated purchased power costs and provides the ability to charge the customer with a price per kilowatt hour. As of December 31, 2024 and 2023, the Commission had no accumulated unbilled PPA costs.

NOTE 15. CONTINGENCIES

The Commission is occasionally involved in claims arising out of its operations in the normal course of business, none of which are expected, individually or in the aggregate, to have a material adverse effect on the Commission.

NOTE 16. NET INVESTMENT IN CAPITAL ASSETS

The calculation of the net investment in capital assets component of net position is as follows:

	_Dec	ember 31, 2024	Dec	cember 31, 2023
Net investment in capital assets: Capital assets, net of accumulated depreciation	\$	320,467,108	\$	287,828,249
Right-to-use lease assets, net of accumulated amortization		6,222		39,134
Add: Deferred loss on refunding Unspent bond proceeds		43,012 15,002,628		62,298 -
Less: Retainage payable Outstanding bonds, leases and notes		(477,343)		(431,324)
payable, net of original issue premiums		(56,051,236)		(43,023,530)
	\$	278,990,391	\$	244,474,827

NOTE 17. SPECIAL ITEM

During 2024, the Commission was awarded a legal settlement from a civil suit in which they, along with several other parties, were defendants in a lawsuit filed by stakeholders in the Piedmont Municipal Power Agency (PMPA). The Commission has classified this as a "special item" as noted on the statements of revenues, expenses, and changes in net position as well as the statements of cash flows.

REQUIRED SUPPLEMENTARY INFORMATION

SCHEDULE OF THE COMMISSION'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY DECEMBER 31,

As of June 30,	Commission's Proportion of Net Pension Liability	Commission's Proportionate Share of the Net Pension Liability	Commission's Covered Employee Payroll	Commission's Proportionate Share of the Net Pension Liability as a Percentage of Covered Employee Payroll	Plan Fiduciary Net Position as a Percentage of Total Pension Liability
South Carolina Retirement System					
2024	0.063581%	\$ 14,910,019	\$ 8,737,179	170.7%	61.8%

STATISTICAL SECTION (UNAUDITED)

STATISTICAL SECTION (Unaudited)

This part of the Commission's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Commission's overall financial health.

ndex Page
inancial Trends51 - 54
hese schedules contain trend information to help the reader understand how the Commission's financial performance and well-being have changed over time.
Revenue Capacity 55 - 62
hese schedules contain information to help the reader assess the Commission's most significant local revenue ources, including water, gas and electric revenues.
Debt Capacity
These schedules present information to help the reader assess the affordability of the Commission's current levels countstanding debt and the Commission's ability to issue additional debt in the future.
Demographic, Economic and Operating Information66 - 70

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Commission's financial activities take place. These schedules contain service and infrastructure data to help the reader understand how the information in the Commission's annual comprehensive financial report relates to the services the Commission provides and the activities it performs.

⁽¹⁾ During 2000, the Commission initiated a policy of charging developers and consumers capacity fees to recover a portion of the economic impact directly related to these system expansions.

These fees may be used to pay a portion of the debt service on debt issued to fund such improvements, and therefore are considered available for debt service under the Bond Ordinance

⁽²⁾ Maximum principal and interest requirements on outstanding debt for such fiscal year

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Chairman and Members of the Commission Greer Commission of Public Works Greer, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the **Greer Commission of Public Works** (the "Commission"), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements, and have issued our report thereon dated April 14, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Commission's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
