DELIVERY POINT CHARGE

Any charges that are assessed by Wholesale Power Supply Provider in relation to the delivery point connections shall be the responsibility of the customer and shall be billed per month to the customer.

POWER FACTOR CORRECTION

When the average monthly power factor of the customer's power requirements is less than eighty five percent (85%) the CPW may correct the integrated demand in kW for that month by multiplying by eighty five percent (85%) and dividing by the average power factor in percent for that month.

DETERMINATION OF BILLING DEMAND

The demand for billing purposes for each month shall be the maximum integrated 30-minute demand in that month.

SALES TAX AND MUNICIPAL FEES

Any applicable sales tax or other fee assessed by or remitted to a state or local government authority will be added to the charges determined above.

INTERRUPTION OF SERVICE

The CPW will make reasonable provisions to ensure satisfactory and continuous service, but does not guarantee a continuous supply of electrical power and energy and shall not be liable for damage occasioned by interruptions of service or failure to commence delivery caused by acts of God, or the public enemy, or for any cause reasonably beyond its control, including, but not limited to the failure or breakdown of facilities, floods, fire, strikes, or action or orders of any agency having jurisdiction in the premises, or for interruptions which are necessary for inspection, repair, or changes in equipment or facilities of the CPW or its bulk power suppliers. The customer shall notify the CPW immediately of any defects, trouble or accident that may in any way affect the delivery of electric service by the CPW.

PAYMENT

Bills are due and payable on the due date of the bill at the offices of the Greer Commission of Public Works. Bills are past due and delinquent on the first business day after the due date shown on bill, at which time customer will be assessed a late charge equal to five percent (5%) of the most current unpaid past due amount. Disconnection may occur on the 11th day following the due date of bill or thereafter, unless prior arrangements have been made with the CPW. Any customer who has his or her services terminated for non-payment shall also be subject to a \$50.00 reconnect fee for services to be restored during normal business hours.

OBLIGATIONS

The obligations of the CPW regarding supplying electric service are dependent upon its securing and retaining all necessary rights-of-way, privileges and permits for the delivery of such service. The CPW shall not be liable to any customer or applicant for electric service in the event it is delayed in, or is prevented from, furnishing the electric service by its failure to secure and retain such rights-of-way, privileges and permits.

SERVICE CONTRACT

Application and contract in writing shall be required which, when accepted by the CPW, shall constitute the contract between the customer and the CPW. No promises, agreements, statements of representations of any agent or employee of the CPW shall be of any binding force or effect unless the same be incorporated in writing in such contract. The contract shall not be transferable or assignable, without written consent of the CPW.

The original term of this contract shall be one year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter, by giving at least sixty days previous notice of such termination in writing; but the CPW may require a contract for a longer original term of years where the requirement is justified by the circumstance.
